

Phoenix Max

Get Maximum Performance and Superior Diagnostics

The Phoenix Max Basic is one of TOPDON's most exciting automotive diagnostic scanners. With a 13.3" screen, this all-in-one tool offers a wide array of functions that will expand any technician's capacity to complete even more jobs. Covering over 85 brands of vehicles, including Asian, US Domestic, and European makes. This coverage includes EV, Hybrid, Supercars, and Exotics. The Phoenix Max includes a docking/charging station, optional ADAS compatibility, optional heavy-duty diagnostics compatibility, and Topology Mapping that shows all car systems in one view. Its updated VCI includes J2534, CanFD, DoIP, D-PDU, and RP1210 protocols, allowing professionals to perform more complex repairs on a variety of automotive and heavy-duty vehicles. Two years of updates and two years of warranty included with purchase.
